

Academia / Research Cluster

How to select members for the GG

- Global reach
- Ability to engage collectively
- Resources to contribute adequately (special cases for Institutions from DC)
- Institution represented has signed the Agenda Consensus Paper
- Regional representation?

Discussion

- Only persons who regularly participate in GASL events
- How much time and resources? 4 meetings per year, some virtual meetings, MSP,
- What do we expect: Communicate with the guiding group and seek mandates from cluster members

Academia / Research Cluster

Roles:

- Communicate with the GG and seek mandates from cluster members
- Collect information what is going on in the livestock sector and propose relevant research
- Promoting the agenda
- What is the value of being part of it?
- Why will your institution send you to the meetings
- Aim for a balanced participation
- Regional representation? Keep it flexible for the start. Look first at the candidates

Academia / Research Cluster

Resources:

- Time to work for the GASL
- Time to attend the GG and MSP meetings
- Financial resources for time and travel

Academia / Research Cluster

Functions within GASL

- Provide evidence
- No formal structure. Cluster GG members inform the cluster members by D-Group information

Process

- Register in the cluster by e-mail to livestockdialogue@fao.org
- Fritz Schneider sends a mail with the process as discussed by end of November 2014
- Academia/Research Candidates to be recommended to GG by 31.03.2015

Communication and feed back mechanism

- By e-mail list
- Set up of a D-Group on an FAO server

Academia / Research Cluster

Role of Executive Committee

- FA chairs? At least one member of the FA chairs
- Executive Committee composition to be discussed and decided by Guiding Group
- Donors
- Possible composition, 1 FA chair, 1 member per Cluster
- Resources have to be available for the members of the EC and FA Chairs from GASL resources
