

Global Agenda for Sustainable Livestock

Accomplishments and outlook 2017-2019

LAMP – livestock antimicrobial partnership

Ulf Magnusson

Rome, GG Meeting
06 March, 2018

BUILDING TOGETHER SUSTAINABLE LIVESTOCK
for people, for the planet

LAMP – a recap of the *modus operandi*

Addressing antimicrobial resistance by supporting healthy and productive livestock:

- I. incentives for change,
- II. education and training,
- III. animal management and livestock husbandry systems

Progress in LAMP 2017

Objective	Action	Partners	Progress	Comments
Scoping the role for GASL to contribute to the reduction of AMR	Working meeting in Uppsala 20-22 March	20 participants for the different clusters of GASL from several regions of the world	Proposal for an Action Network	Jointly funded by GASL and SLU
Endorsement of LAMP as a new action network	Presentation at the MSP in Addis in May		LAMP became a new Action network	
Broaden the network	Oral and e-mail invitation	Multiple kinds of stakeholders enrolled	Some 15 persons on an e-mail list	
Collecting Good practices among GASL members	Preparing (and consulting about) a template for good practices	Multiple kinds of stakeholders enrolled	Final draft tested with stakeholders	Final version posted at the website Feb 2018
Providing funds	Contacting potential donors		Some funding from SLU Global	Continuous and positive dialog with other donors

LAMP – outlook 2018

- 2018 LAMP will focus on four aspects:
 - I. Expand the network, and form an executive committee (ec)
 - II. Collect Good practises (work by the SLU secretariat)
 - III. Analysing and synthesising the collected practises (work by the secretariat and the ec)
 - IV. Continuing the fundraising

Resolutions and support-need

- Regarding contributions to the **COP 23 resolution**, LAMP's area number III *animal management and livestock husbandry systems* relates directly to paragraph 2 (e) in the resolution (*Improved livestock management systems*).
- Regarding the **GFFA resolution** *on implementation of the Global Action Plan on Antimicrobial Resistance led jointly by the WHO, the OIE and the FAO, the FAO's Action Plan on Antimicrobial Resistance and the OIE Strategy on Antimicrobial Resistance and the Prudent Use of Antimicrobials*, do LAMP as a whole directly contribute to this resolution.

Support-need

- Until a more substantial and long-term funding (besides the SLU support for the very secretariat) is achieved, **support from GASL for arranging one or two executive committee meetings during 2018 would be appreciated.**

Thanks!
