- **Guideline development 2016-2017:** TAG Member's commenting round
- **August 11th 2017:** Submission to LEAP SC, Secretariat and peer-reviewers
- **April 30th 2018:** Revision of the guidelines
- => Public review

2. Nutrients modelling and impact assessment

Why LEAP?

Farmers, consumers and other livestock stakeholders are increasingly in need of more information about the environmental performance [\[read more\]](#)

[more\]](#)

What do we do?

LEAP develops comprehensive guidance and methodology for understanding the environmental performance of livestock supply chains. [\[read more\]](#)

Have your say

Kindly provide your comments by filling in [this template](#) and submit the compiled form before **February 28th 2018** to Livestock-Partnership@fao.org.

Please note that without clear justification and alternative proposal(s), your comments may not be addressed in the LEAP products concerned.
