

Livestock for Social Development

Ernesto Reyes

Rome, GG Meeting
26-27 February 2019

Livestock for Social Development

BUILDING TOGETHER SUSTAINABLE LIVESTOCK
for people, for the planet

Dialogue facilitation

Create portfolio with social value of livestock related to poverty, hunger, employment, gender, youth, decent work, other.

Providing evidence

prospective papers of dairy to selected sustainable development goals

SDG1 (reduce poverty)

SDG2 (end hunger)

SDG3 (ensure healthy lives)

SDG4 (quality education)

SDG5 (gender equality)

SDG8 (promote full and productive employment).

Case studies of livestock social contribution (OTHER LIVESTOCK SECTORS AND SOCIAL GROUPS)

Dairy Impact Methodology (DIM)

Support practice and policy change

Models for measuring livestock impact in 3 regions and production systems

Proposal will be presented to potential donors

Tools and models for measuring current contribution of Dairy to Social Development, potential contribution if a project will improve conditions and social return in investment

ACTION PLAN PROPOSED

It has been agreed that the initial focus of this Action Network will be on dairy (cows and buffaloes) to start with and motivate others livestock groups

Evidence

Series of prospective papers
On Dairy and SDGs

Dairy impact

Dairy Impact Methodology

Evidence

2nd paper on SDG 2 – End Hunger

Livestock provide 14 percent of the total calories (kcal) and 33 percent of the protein in people’s diets at global level (FAOSTAT, 2016).

This paper will examine the evidence for **direct** and **indirect** causal linkages between **dairy development** and **hunger reduction** / improvement of **food security**

Steps

- **Define Search strings and databases to consult**
- **Collecting and gathering papers**
- **Define inclusion / exclusion conditions = discarding papers**
- **Define paper structure**, content, and major clusters for findings
- Write and edit draft versions for revision
- Co-publishing agreement and publication

Dairy impact

Dairy Impact Methodology - DIM

Steps

- **Define working and conceptual framework**
- **Determine basic elements to measure**
- **Conform a working consultancy group (DIM Task force)**
- The selection of a core set of indicators to measure social impact
- The development of a model to link input and output indicators
- Testing and refining methods / models

Actions towards fund raising have been explored
(IFAD 1 page proposal)

WORKSHOP FOR DEFINING SCOPE AND
CONTENT LINES

CASE STUDIES ON PASTORALISM
(partially explored)
