Joining the Global Agenda for Sustainable Livestock (GASL)

9th MSP Meeting of the Global Agenda for Sustainable Livestock, Kansas US
12 September 2019
o What is a multi-stakeholder partnership?

o The Sustainable Development Goal No. 17

o What was the origin of GASL? (History)

o GASL’s features and structure (clusters, GG, action networks)

o Who can join GASL and what are the benefits and costs of joining?
  • Participation opportunities (clusters, ANs, meetings, publications)

o The Consensus Document to Join GASL

o How is GASL financed? (Action Plan and donors)

o How does GASL assure representation balance and avoids conflict of interests?
History of GASL 2011-2019

1999: Livestock's Long Shadow. FAO
2006: The Livestock Revolution. Delgado
2009: Livestock in a Changing Landscape. World Livestock
2010: Global livestock production systems. FAO/ILRI
2011: COAG resolution to create GASL
2012: Livestock sector development for poverty reduction. FAO
2013: MSP in Nairobi. Refine action programmes and operational modalities; initial Agenda set-up
2014: MSP in Panama. UN Agenda 2030 Sustainable Development Goals (SDGs) related to livestock and the advance of a sustainability framework that addresses the SDGs.
2015: MSP in Addis Abeba. 300 participants; Showcasing livestock-based solutions, tools and cases
2016: MSP in Cali. 165 participants; elaboration of full sustainability
2017: MSP in Brasilia. 70 participants; Sustainable ('responsible')
2018: MSP in Phuket. Focus Area groups; Phuket Roadmap; next steps
2019: MSP in Ottawa. Incorporate all facets of sustainability

11th GFFA, Berlin
2nd regional MSP in Brazil
9th MSP in Manhattan, Kansas

Introduction of the four sustainability domains, framework for GASL.
Collaboration of Eastern Europe, Caucasus & Central Asia towards sustainable livestock production.
Livestock on the Move. Regional focus on mobile herding. Global focus on four sustainability domains.

#LivestockAgenda
Innovation for Sustainable Livestock Systems

- GASL is a **multi-stakeholder partnership**. It enhances the contribution of livestock systems to sustainable development and is a recognized platform for sharing solutions.

- For GASL, it is important to support and magnify the work of its partners with a multi-stakeholder approach.

- Innovation is crucial for a sustainable development of the livestock sector along the respective value chains.

Joining the Global Agenda

GASL Consensus Document (13 November 2015)

The signatories:

1. recognize the UN Agenda 2030 as framework for sustainable development
2. are convinced that livestock development plays a key role in its attainment
3. are conscious of the variety of regions with different challenges and approaches
4. take an integrated approach considering: livelihoods, social impacts, public health and animal welfare, environmental impacts, land use and tenure, biodiversity
5. recognize the active engagement of all Clusters
6. accept that GASL is open, consensual, inclusive, based on knowledge and mutual respect, and built on voluntary stakeholder engagement

#LivestockAgenda
GASL Consensus Document (13 November 2015)

The signatories agree to:

• Participate and engage actively in the Global Agenda for Sustainable Livestock
• Contribute to the capacity of the Global Agenda for Sustainable Livestock
• Commit with the other stakeholders of the Global Agenda for Sustainable Livestock

2nd regional MSP in Brazil

9th MSP in Manhattan, Kansas

Innovation for Sustainable Livestock Systems

Livestock in a Changing Landscape World Livestock

MSP in Brasilia. 70 participants; Sustainable ('responsible')

MSP in Phuket. Focus Area groups; Phuket Roadmap; next steps

Global livestock production systems. FAO/ILRI

10th GFFA, Berlin

Introduction of the four sustainability domains, framework for GASL.

1st regional MSP in Ukraine

Collaboration of Eastern Europe, Caucasus & Central Asia towards sustainable livestock production

MSP in Ulaanbaatar. Livestock on the Move. Regional focus on mobile herding. Global focus on four sustainability domains.

11th GFFA, Berlin

2nd regional MSP in Brazil

9th MSP in Manhattan, Kansas

Innovation for Sustainable Livestock Systems

Livestock in a Changing Landscape World Livestock

MSP in Brasilia. 70 participants; Sustainable ('responsible')

MSP in Phuket. Focus Area groups; Phuket Roadmap; next steps

Global livestock production systems. FAO/ILRI

10th GFFA, Berlin

Introduction of the four sustainability domains, framework for GASL.

1st regional MSP in Ukraine

Collaboration of Eastern Europe, Caucasus & Central Asia towards sustainable livestock production

MSP in Ulaanbaatar. Livestock on the Move. Regional focus on mobile herding. Global focus on four sustainability domains.
Major Achievements 2011 to 2019

- Provision of a unique forum to discuss the issues around livestock sustainability with a broad and diverse participation
- From a focus on natural resources to a sustainability approach encompassing social, economic and environmental issues
- Growth in membership
- Contribution through FAO’s operational and technical expertise
- Progress towards a more consensual view on sustainable livestock
- Technical solutions for sustainable livestock globally, regionally and nationally
- Policy and practice change in Mesoamerica and South America (low-carbon livestock production), in Mongolia (Mongolian Agenda for Sustainable Livestock) and at initial stages in Eastern Europe and Central Asia and Brazil (GASL Regional MSP Meetings in Uman, Ukraine in April 2018 and in Brazil in June 2019)

The Global Agenda has **111 members** of seven clusters. (August 2019)
Vision: enhancing the **contribution of the livestock sector** to sustainable development

Mission: enhancing livestock stakeholders’ commitment, investments and adoption of good practices and policies in support of the **UN Agenda 2030** through a **multistakeholder partnership process**

Objective: contributing towards achieving the **SDGs** by focusing its activities on the four **sustainability domains** and tangible progress by:
- Facilitating dialogue among all stakeholders
- Generating, assembling and communication of evidence
- Advocating practice and policy change

#LivestockAgenda
Sustainability Domains

GASL adopted the four sustainability domains as an outcome of the Global Forum for Food and Agriculture (GFFA) Meeting in Berlin, January 2018. The domains guide the work of the Global Agenda and serve as a framework.

#LivestockAgenda
Strategic Framework of GASL

The Ways we Work

- Global multistakeholder partnership activities
- Support the development of national and regional multistakeholder partnerships

- Link GASL to global public and private institutions, fora and research networks
- Facilitate policy dialogue, policy development and sharing of experience

- Actions and interactions of Clusters and Action Networks
- Strengthen communication and networking

#LivestockAgenda
Sustainability Domains & The Ways we Work
Sustainability Domains & SDGs
Challenges 2019-2021

• Increase visibility
• Grow its viable financial base
• Increase its presence in international and global fora
• Increase its contribution to policy dialogue
• Increase effectiveness as a partner of multilateral and intergovernmental institutions
• Broaden the stakeholder basis
• Include gender dimension explicitly
• Explore adoption of a Theory of Change and a Monitoring, Learning and Evaluation System for GASL
