DIVERSITY

INNOVATION

TRANSFORMATION

## Key message 1

Recognize and support sustainable livestock's contribution to multiple development ambitions (and avoid unintended consequences)

## Key message 2

Harness diversity and growth for a sustainable  
livestock sector

## Key message 3

Support sustainable livestock enterprises through financing, business and trade innovations

## Key message 4

Invest and use the latest technologies at a faster  
pace 'innovation expedited'

## Key message 5

Undertake awareness and engagement actions to ensure livestock roles in livelihoods and economic growth are included in livestock-specific and wider development policies/agendas
