

IPC

19 September 2012

GLOBAL AGENDA OF ACTION
IN SUPPORT OF SUSTAINABLE LIVESTOCK SECTOR DEVELOPMENT

IPC meeting objectives

- Agree on Agenda's
 - Service functions
 - Scope of these functions
 - Concomitant oversight/governance requirements
- Nairobi MSP meeting
 - Objectives
 - Form
 - Key participants

How do we propose to reach these objectives

AM

- 09:30 Status brief Agenda – *Secretariat (principles?)*
 - 10:30 Break
- 11:00 Agenda: Functions, scope, and oversight requirements - *Secretariat*
 - Network and inform;
 - Analyze and guide;
 - Implement;
 - Certify;
- 11:45 Discussion: Agreement on Agenda functions and their scope
 - 12:30 Lunch

PM

- 14:00 Discussion: Agreement on Agenda oversight mechanism
 - 15:00 Break
- Next MSP meeting Nairobi – *Secretariat*
- Discussion: Agreement on MSP meeting form, objectives, key participants
- Any other business – *Chair*
- Agreement, Action points and adjourn – *Chair*
- *NB. Conference call with Jimmy Smith from 15h30 onwards*

Agenda - Status Brief - Progress to date

○ General

- Participation in numerous events (including run-up to Rio +20)
- Steady expansion of MSP membership
- ‘Do-no-harm’ - animal welfare
- Representational mechanisms
- Corporate image

Progress to date FA1 - bridging the efficiency gap (i)

- Metrics - *Partnership on the environmental benchmarking of livestock supply chains*
 - Launch on July 4, 2012
 - website on line: <http://www.fao.org/ag/againfo/livestock-benchmarking/en/>
 - Manager being recruited
- Review of literature and experience on the assessment and improvement of natural resource use efficiency assessment
 - Template developed with PBL

Progress to date FA1 - bridging the efficiency gap (ii)

- Pilot on the *Generation of carbon credits through dairy efficiency gains*
 - Identification mission in September
 - Concept note for a pilot project in Kenya
 - Concept: the finance derived from the sale of C credits will be used to speed up the adoption of efficiency increase practices
- Scoping work
 - Not initiated but LCA of GHG emissions in Livestock supply chains completed , that offers information for the scoping work

Progress report FA2 - restoring grasslands (i)

Scoping work (i)

- Global assessment of grassland carbon sequestration potential:
 - Century modeling commenced 2011
 - Scheduled for completion in November 2012

Scoping work (ii)

- Global grassland tenure mapping proposal discussed with WISP, IUCN & ILRI in June 2012
- Tentative commitment made by ILRI, given strong alignment with CGIAR CRP 5 program (on land water and ecosystems).
- Full proposal to be developed by October 2012

Measurement, verification & reporting

- Grassland carbon accounting methodology
 - 1st independent validation under VCS completed (June 2012); 2nd and final independent validation to be completed by December 2012
 - Once validated, will facilitate access of grassland restoration projections to carbon markets, globally

Progress report FA2 - restoring grasslands (ii)

Piloting (i)

- 3 Rivers Sustainable grazing project
 - Natural and production resource inventory complete (2010)
 - Environmental & economic feasibility assessment, and project development document complete (2012)
 - Negotiations with co-investors (Qinghai government & private sector) and QHEX commenced
 - ERPA to be finalized, with project implementation to commence in 2013

Piloting (ii)

- Grassland restoration project proposal
 - Preliminary project proposal drafted and circulated to potential co-developers, e.g. Uruguayan government.
 - Selection of project site expected by February 2013;
 - Inventory, land use planning activities to commence July 2013, with pre-implementation tasks to be completed by June 2014

Progress report FA3 - Reduced discharge

○ Scoping

- Global inventory of the production of NPK in manures, current manure management, actual use as fertilizer and associated nutrient balances.
- Assess potential agronomic and environmental impacts of the better use of manures as fertilizer.
- In collaboration with WUR MMIP, FA3 cluster, GRA

○ Knowledge Management

- ‘Gridded-manure’ maps of the world - current and projected
- Data; searchable repositories; projects info; experiences
- The *Manure Management kiosk* – marketplace
- NSU?

Progress report FA3 - Reduced discharge

○ Associated Pilots

- Vietnam – smallholder dairy
- Vietnam – pigs (under discussion Ministry – Branch organisations)

Functions, scope and oversight requirements

19 September 2012

GLOBAL AGENDA OF ACTION
IN SUPPORT OF SUSTAINABLE LIVESTOCK SECTOR DEVELOPMENT

Network and inform

○ Functions

- Multi-stakeholder debate
- Knowledge management
- Market place (supply/demand) for knowledge and services

Network and inform

○ Scope of functions

- Stimulate multi-stakeholder interaction and collaboration
- Enhance access to, and choice of information
- Knowledge exchange
- Link demand for knowledge and services, to its supply and/or suppliers

Network and inform

○ Outputs

- Multi-stakeholder dialogue and exchange
- Internet-based information systems
- Expert, organization and services rosters

Network and inform

○ Secretariat

- Establish and maintain knowledge management systems
- Organize dialogue platform meetings
- Broker linkages and collaboration among stakeholders
- Support capacity building
- Coordinate and support *Advisory* Committee

Network and inform

○ Financing

- Funds to finance Secretariat and *Advisory* Committee roles
- Funds for knowledge management systems establishment and maintenance
- Fund for capacity building

Network and inform

○ Governance

- *Advisory** Committee – composed of stakeholder group representatives:
 - To advice on Secretariat direction and work programme
 - To advance Agenda objectives and outcomes among different stakeholder groups

○ Additional Functions

- Multi-stakeholder debate
- Knowledge management
- Market place (supply/demand) for knowledge and services
- Independent research and assessment in order to rectify the dearth of livestock sector-related analyses and assessments in the quest for sustainability

- **Additional scope of functions**
 - Stimulate multi-stakeholder interaction and collaboration
 - Enhance access to, and choice of information
 - Knowledge exchange
 - Link demand for knowledge and services, to its supply and/or suppliers
 - Development of metric and methodologies
 - Strategic sector guidance
 - Inform (outside) inter-governmental and partnership processes

○ Additional Outputs

- Multi-stakeholder dialogue and exchange
- Internet-based information systems
- Expert, organization and services rosters
- Metrics and methodologies
- Independent sector and production system analyses
- Voluntary 'best-practice' guidance
- Policy-relevant advice

Network and inform plus Analyze and guide

○ Additional Secretariat roles

- Establish and maintain knowledge management systems
- Organize dialogue platform meetings
- Broker linkages and collaboration among stakeholders
- Support capacity building
- Commission and coordinate independent research and analysis
- Implement perspective and foresight studies; resource assessments and policy responses within the search for sustainable livestock sector solutions
- Coordinate peer review
- Prepare 'best-practice' guidelines
- Policy-relevant messaging
- Support (backstop) projects and investments
- Administer donor funds
- Coordinate and support Stakeholder-specific clusters
- Coordinate and support *Steering* Committee

○ Additional financing

- Funds to finance Secretariat and *Advisory* Committee roles
- Funds for knowledge management systems establishment and maintenance
- Fund for capacity building
- Secretariat-administered funds (*ring-fenced* and *basket*) for commissioned and secretariat-implemented studies
- Funds to backstop projects and investments
- Funds for participation/representation at inter-governmental and partnership processes
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat

○ **Oversight**

- Multi-stakeholder Advisory Committee (nominated by stakeholder groups from stakeholder-specific clusters):
 - To identify and prioritize methodology development and sector / production system analyses
 - To advice on Secretariat direction and work program
- To advance Agenda objectives and outcomes among different stakeholder clusters

○ **Ad-hoc expert panels:**

- To design and peer review independent research and analyses

Network and inform plus

Analyze and guide *plus* **Implement**

○ Additional Functions

- Multi-stakeholder debate
- Knowledge management
- Market place (supply/demand) for knowledge and services
- Independent research and assessment
- Implementation of focus area pilot projects

○ **Additional scope of functions**

- Stimulate multi-stakeholder interaction and collaboration
- Enhance access to, and choice of information
- Knowledge exchange
- Link demand for knowledge and services, to its supply and/or suppliers
- Development of metric and methodologies
- Strategic sector guidance
- Inform (outside) inter-governmental and partnership processes
- Manage the implementation of practice changing, multi-stakeholder pilot project

○ Additional Outputs

- Multi-stakeholder dialogue and exchange
- Internet-based information systems
- Expert, organization and services rosters
- Metrics and methodologies
- Independent sector and production system analyses
- Voluntary ‘best-practice’ guidance
- Policy-relevant advice
- Practice change ‘proof of concept’

○ **Additional Secretariat roles**

- Establish and maintain knowledge management systems
- Organize dialogue platform meetings
- Broker linkages and collaboration among stakeholders
- Support capacity building
- Commission and coordinate independent research and analysis
- Implement perspective and foresight studies; resource assessments and policy responses within the search for sustainable livestock sector solutions
- Coordinate peer review
- Prepare ‘best-practice’ guidelines
- Policy-relevant messaging
- Support (backstop) projects and investments
- Administer donor funds
- Coordinate and support Stakeholder-specific clusters
- Coordinate and support *Steering Committee*
- Coordinate design and implementation of pilot projects
- Coordinate and support Focus Area clusters

○ Additional financing

- Funds to finance Secretariat and *Advisory* Committee roles
- Funds for knowledge management systems establishment and maintenance
- Fund for capacity building
- Secretariat-administered funds (*ring-fenced* and *basket*) for commissioned and secretariat-implemented studies
- Funds to backstop projects and investments
- Funds for participation/representation at inter-governmental and partnership processes
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat
- Secretariat-administered pilot project fund (*ring-fenced* and *basket*)
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat

○ Governance

- Multi-stakeholder *Steering* Committee (elected by stakeholders from stakeholder specific and focus area clusters):
- To identify and prioritize methodological development and sector analyses
- To identify and prioritize pilot project development and implementation
- To discuss and assess pilot project results and implications
- To advance Agenda objectives and outcomes among different stakeholder clusters
- To advice on Secretariat direction and work programme

○ Ad-hoc expert panels:

- To design and peer review independent research and analyses

Network and inform plus

Analyze and guide plus

Implement plus **Certify**

○ Additional Functions

- Multi-stakeholder debate
- Knowledge management
- Market place (supply/demand) for knowledge and services
- Independent research and assessment
- Implementation of focus area pilot projects
- Recognition of conformity of production processes and products to a set of Agenda standards

○ Additional scope of functions

- Stimulate multi-stakeholder interaction and collaboration
- Enhance access to, and choice of information
- Knowledge exchange
- Link demand for knowledge and services, to its supply and/or suppliers
- Development of metric and methodologies
- Strategic sector guidance
- Inform (outside) inter-governmental and partnership processes
- Manage the implementation of practice changing, multi-stakeholder pilot project
- Development of Agenda standards
- Development of a concomitant Agenda brand

○ Additional Outputs

- Multi-stakeholder dialogue and exchange
- Internet-based information systems
- Expert, organization and services rosters
- Metrics and methodologies
- Independent sector and production system analyses
- Voluntary 'best-practice' guidance
- Policy-relevant advice
- Practice change 'proof of concept'
- Agenda standards and accompanying brand

○ Additional Secretariat roles

- Establish and maintain knowledge management systems
- Organize dialogue platform meetings
- Broker linkages and collaboration among stakeholders
- Support capacity building
- Commission and coordinate independent research and analysis
- Implement perspective and foresight studies; resource assessments and policy responses within the search for sustainable livestock sector solutions
- Coordinate peer review
- Prepare 'best-practice' guidelines
- Policy-relevant messaging
- Support (backstop) projects and investments
- Administer donor funds
- Coordinate and support Stakeholder-specific clusters
- Coordinate and support *Steering* Committee
- Coordinate design and implementation of pilot projects
- Coordinate and support Focus Area clusters
- Coordinate development of an agreed set of Agenda standards and protocols
- Coordinate involvement of independent certification agency in *Agenda Standards and Brand* development and accompanying application and approval procedures

○ Additional financing

- Funds to finance Secretariat and *Advisory Committee* roles
- Funds for knowledge management systems establishment and maintenance
- Fund for capacity building
- Secretariat-administered funds (*ring-fenced* and *basket*) for commissioned and secretariat-implemented studies
- Funds to backstop projects and investments
- Funds for participation/representation at inter-governmental and partnership processes
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat
- Secretariat-administered pilot project fund (*ring-fenced* and *basket*)
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat
- Funds for the involvement of an independent certification agency
- Funds for additional coordination and process support tasks to be fulfilled by the Secretariat

- Governance
- Multi-stakeholder *Steering* Committee (elected by stakeholders from stakeholder specific and focus area clusters):
 - To identify, prioritize and endorse methodological development and sector analyses
 - To identify, prioritize, and endorse pilot project development and implementation
 - To discuss and assess pilot project results and implications
 - To develop Agenda standards and protocols
 - To advance Agenda objectives and outcomes among different stakeholder clusters
 - To advice on Secretariat direction and work programme
- Ad-hoc expert panels:
 - To design and peer review independent research and analyses

Next Multi-Stakeholder Platform Meeting - Nairobi

Objectives

Form

Key participants

Constituting meeting of the Agenda

- (i) Ceremonial/Opening
- (ii) Agenda 'grand tour – Public commitment cum media event
- (iii) Working sessions to refine action programmes; oversight structures; create further buy-in
