Analysis of best practice of aligned and integrated policies and market mechanisms	Understanding of synergies, trade-offs and implementation opportunities	<ul style="list-style-type: none">Collection of policy and market informationPolicy analysisLocal contextRegional policy workshops (multi stakeholder)	<ul style="list-style-type: none">Inter gov org (organize network, policy workshops and share best practice)Public sector (provide info on existing policy)Private sector and NGOs (info policy constraints and effectiveness)Academia (lead analysis)	
Analysis of changing roles, function, financing, and practices of K+S providers within different agricultural systems	Ability to identify and support ‘best fit’ Knowledge and service provision approaches	Facilitate access to knowledge / provide training to accommodate changing roles of K+S providers; ongoing		
Methods for the assessment of brokerage networks	‘Measure’ and adjust effectiveness of brokerage networks			

- 3 Working groups
- Knowledge / assessment / methodologies - Rich
- Political / institutional processes - Eduardo
- Pilot projects - Tito

Tasks:

- Review list of proposed GAA priorities and discuss why the GAA has a comparative advantage / brings value added to addressing this;
- Discuss and complete matrix;
- Indicate proposed time frame and responsibilities for activities and milestones (be specific if possible);
- Compare the proposed GAA priorities for collectively – and privately-managed grass/rangelands – overlaps? Synergies?;
- Report back to plenary

GAA Stakeholder groups: Public sector; Private sector; NGO/CSOs; Research Academia; Intergovernmental organizations; and the GAA secretariat
