What do we want to achieve?

**Long-term impact**
By strengthening animal health systems in five areas, we will achieve improved animal health and welfare, leading to a secure income, food security and improved health and wellbeing of people.

**5-year strategic objective**
By April 2026, national governments and international agencies have acknowledged the importance of animal welfare and animal health systems by increasing the level of spending on animal health systems. Animal health and welfare is recognised as an essential pillar of One Health within global policy (i.e. SDG 3).

1. Support community engagement and access to services
2. Increase and improve the animal health workforce
3. Close the veterinary medicines and vaccines gap
4. Improve animal disease surveillance
5. Enhance collaboration for One Health
