The Oceania Regional Consultation

• 22\textsuperscript{nd} August, 2022 – held online
  • Market Drivers
  • Environment
  • Impacts of Climate Change
  • Youth
  • Local Communities
  • 78 registrants (47 NZ, 18 AU, 13 Other)
Key Challenges in Oceania

- How do we perceive market drivers?
- The need for transparency
- Balancing external influences with internal procedures
- Biosecurity
Key Achievements in Oceania

The Australian livestock industry has reduced its net GHG emissions by 59.1% (2019)

We focus on our people – they lead sustainability

NZ livestock exclusion from waterways has led to improvements in clarity and reductions in P across 40% of measured sites over 20 years.
## Key Livestock Sector Outcomes to Deliver in Oceania

<table>
